

# OUR FEATURE PRESENTATION

DOLBY TRUEHD

DTS-HD MASTER AUDIO

8 CHANNEL 192/24 PCM

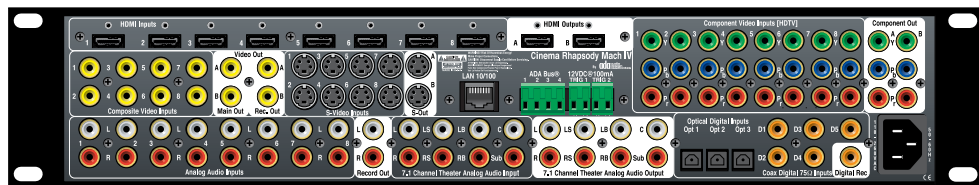

8 HDMI INPUTS & VIDEO-LOOP  
DIGITAL & ANALOG CROSSOVER

## CINEMA RHAPSODY MACH IV SURROUND SOUND PREAMP/CONTROLLER

High-definition home theater is now playing on the Cinema Rhapsody Mach IV as Blu-ray DVDs complete the HD home theater experience. Decoding all HD audio mixes, the Cinema Rhapsody Mach IV combines unmatched performance with features that make it the most distinctive home theater controller on the market. Featuring 8 of everything: HDMI, component, S-Video, composite, analog audio and digital audio inputs, the Cinema Rhapsody Mach IV connects to a lifetime of source components. It also enables you to incorporate your choice of video processor by way of its unique video loop-through. And since a no compromise home theater goes beyond decoding audio and video, the Cinema Rhapsody Mach IV also features dual crossovers, making it possible to use high-performance full-range speakers in conjunction with stand-alone subwoofers.
